

CRAZY CRAYOLA® FACE MIXER - PAGE 1

Print out and color all or some of the Face Mixer pages. With the help of an adult, cut out each page along the thick solid line. Then cut along each of the dotted lines and punch holes in the centers of the three circles along the sides. Stack all of the pages together with the pictures facing in the same direction, and attach them together through the punched holes with string or craft clasps. Now flip through the pages to see all of your crazy creations!
