

FLYING HIGH

Do you ever dream of becoming a jet pilot?

The Navy's Blue Angels pilot F-18 Hornets. They perform daring stunts for crowds of thousands of people many times a year. Color these jets as you would like them to look if you had your own F-18.

Did you know?

A Blue Angels' pilot reaches speeds of 700 miles per hour, and uses an average of 1,300 gallons of fuel during a show. That's a lot of gas!
