

DRAW IN THE STYLE OF C. W. JEFFERYS

Use the tip of your fine line marker to draw 7 different kinds of line patterns you see in the picture.

1. Connect the lines to divide the picture into 20 rectangles.
2. Cut the picture along the lines to make 20 pieces.
3. Glue half the rectangles on the paper so that you have a checker box pattern.
3. Glue them so they match the picture OR in a random order so they are all mixed up.
4. Use a black fine line marker to fill the white spaces with lines and patterns to complete the picture.
